## WHAT IS LCADV?

LCADV is the federally designated state-wide coalition of shelters, safe homes, non-residential programs and individuals working to end domestic violence in Louisiana. We represent rural, urban and suburban areas. Our programs support people of all racial, social, ethnic, religious and economic groups. We oppose violence as a means of control over others and support equality in relationships.

### Our purpose is to eliminate domestic violence in Louisiana by:

- Providing training and technical assistance to member domestic violence programs and allied professionals working with victims of domestic violence
- Supporting and advocating on behalf of member domestic violence programs
- Participating in state planning and resource allocation in partnership with state policy makers
- Providing legislative advocacy on the state and national levels
- Working to create social change and to improve systems responses

**Domestic violence programs in Louisiana offer 24 hour assistance** through hotlines, emergency transportation, emergency, and extended stay shelter, counseling, advocacy, legal advocacy, referrals to other programs, financial assistance, child care, special programs for children, education and training for professionals in various fields who assist victims of domestic violence—all in the interest of helping women establish independent, violence-free lives.

## WHAT IS THE PROBLEM?

- **25% of women** are beaten or raped by a partner during adulthood (NNEDV 2009)
- **15.5 million children** are exposed to domestic violence every year (NNEDV 2009)
- The medical care, mental health services, and lost productivity cost of intimate partner violence is **\$8.3 billion** a year (CDC 2003)
- In a one day study by the National Network to End Domestic Violence, **1,117 victims of abuse** received shelter or transitional housing in Louisiana (NNEDV 2011)
- In 2007, Louisiana ranked **first in the nation** in the rate of women killed by men—with a female homicide rate nearly double the national average (FBI Supplementary Homicide Reports 2009)
